TENURE TRACK FACULTY POSITIONS IN SOFTWARE ENGINEERING and COMPUTER ENGINEERING

DEPARTMENT OF ELECTRICAL AND COMPUTER ENGINEERING
McGill University

The Department of Electrical and Computer Engineering at McGill University, invites applications for tenure-track positions at all ranks. McGill University is among the top research-intensive academic institutions in Canada and is consistently ranked in the top universities worldwide in a number of recent surveys. Successful candidates will play leading roles in maintaining McGill's international reputation of excellence in research, teaching and service.

We are particularly interested in the following areas

- Software Engineering
- Computer Engineering

The Department has strong research activities in communications, computational electromagnetics, electronic materials and devices, microelectronics and computer systems, nanotechnology, photonic devices and systems, power engineering, software engineering and systems and control. Excellent candidates in these areas will also be considered.

The Department is committed to excellence in teaching in its undergraduate and graduate programs in Electrical, Computer and Software Engineering and values service contributions of its Faculty members to the University, the profession and society at large.

Candidates should have or soon expect a Ph.D, preferably with a first degree in electrical, computer or software engineering. Evidence of outstanding research achievements, or research potential, is indispensable. Preferred qualifications include dedication to an environment that supports diversity of population and perspectives; as our students come from a wide range of disciplines, cultures, and backgrounds, we invite candidates to address in their application their ability to teach, supervise, and mentor in this context. Successful candidates will have a strong commitment to the mission of the University, through outstanding activities in the areas of research, teaching and service.

Membership or eligibility for membership in a Canadian professional engineering association is required.

Applications will be reviewed starting on December 1st 2018 and will continue until the positions are filled. Interested candidates should submit applications which include their résumé, a statement of teaching and research interests, names and addresses of three referees and copies of up to three recent publications to

Professor Warren Gross, Chair
Department of Electrical and Computer Engineering
3480 University Street, Room 633
Montreal, Quebec, Canada H3A 0E9

McGill University hires on the basis of merit and is strongly committed to equity and diversity within its community. We welcome and encourage applications from racialized persons/visible minorities, women, Indigenous persons, persons with disabilities, ethnic minorities, and persons of minority sexual orientations and gender identities, as well as from all qualified candidates with the skills and knowledge to productively engage with diverse communities.

McGill further recognizes and fairly considers the impact of leaves (e.g., family care or health-related) that may contribute to career interruptions or slowdowns. Candidates are encouraged to signal any leave that affected productivity, may have had an effect on their career path. This information will be considered to ensure the equitable assessment of the candidate's record.

All qualified applicants are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadians and permanent residents will be given priority.
