

Northern Illinois University
College of Engineering and Engineering Technology
Position Opening: Director of Biomedical Engineering

To apply, please visit <https://employment.niu.edu/postings/38877>

The College of Engineering and Engineering Technology (CEET) invites applications for an anticipated Director position to lead a newly established Biomedical Engineering program. As a dynamic and innovative leader, the new Director will set a new vision for the Biomedical Engineering program to advance education, enrollment management, expansion of research opportunities, and industrial partnerships. The successful candidate will have a solid record of accomplishments in terms of publications, externally funded research program, and engaging leadership. The ABET-accredited College of Engineering and Engineering Technology is one of the University's distinctive strengths. The College of Engineering and Engineering Technology has areas of enrollment growth, a committed and talented faculty, and a loyal alumni base in the Chicago area and beyond. The College of Engineering and Engineering Technology, the newest college at Northern Illinois University, was founded in 1985. It has grown into a highly regarded college with quality programs delivered by excellent faculty who are dedicated to delivering a dynamic and innovative curriculum. The DeKalb campus, regional campuses and online programs serve more than 1,460 undergraduate and 250 graduate students enrolled in the College. Six strong discipline-based academic programs compose the College: biomedical engineering, electrical engineering, industrial and systems engineering, mechanical engineering, mechatronics engineering, and engineering technology. The College offers both undergraduate and graduate degrees, as well as several graduate certificates. Program diversity serves a broad range of students interested in professional engineering and technology careers. NIU has over 18,000 students and is located approximately 65 miles west of Chicago. NIU's vision is to be the premier student-centered, research-focused public university in the Midwest contributing to the advancement of knowledge for the benefit of the people of the region, the state, the nation, and the world. To further support that vision, the College of Engineering & Engineering Technology is currently applying for Ph.D. degrees in Electrical Engineering, Mechanical Engineering, and Industrial & Systems Engineering. In addition, the College has been approved to offer a B.S. degree program in Mechatronics Engineering. For question about this position and application, please contact Mia Hannon at hannon@niu.edu.
