

Assistant Professor – Tenure Track in the Broad Area of Electronic and Photonic Materials, Physics and Devices

The Department of Electrical and Computer Engineering (ECE) in the College of Engineering at the University of California at Santa Barbara invites applications for a tenure-track, assistant professor position with an effective appointment date of July 1, 2019. We desire candidates in the area of Electronic and Photonic Materials, Physics and Devices. Highest priority will be given to exceptional candidates regardless of the specific areas listed above. Information about the department can be found on the web at <http://www.ece.ucsb.edu>.

The ECE department is ranked among the top four ECE departments in the Nation according to the National Research Council rankings. Faculty members include 2 Nobel Laureates and 11 National Academy of Engineering members. More than half of the ECE department faculty are IEEE Fellows.

Applicants are expected to have a Ph.D. in Electrical Engineering, Computer Engineering, Computer Science or a related field by the time of appointment. Candidates should have an established research reputation or outstanding research potential, the ability to attract external research funding, active research in targeted research areas, and a strong commitment to teaching at the undergraduate and graduate levels.

We will consider candidates with backgrounds and interests in any area of electronics and photonics, including emerging and interdisciplinary areas with strong overlap with ECE. Completed applications will consist of a cover letter, curriculum vitae, teaching statement (2-page limit), statement of research interests (3-page limit), and three letters of reference; applicants may also choose to submit a statement of diversity contributions.

Applications must be submitted electronically at <https://recruit.ap.ucsb.edu/apply/JPF01302>

Completed applications received by October 15, 2018 will be given priority consideration, but the position will remain open until filled.

The University is especially interested in candidates who can contribute to the diversity and excellence of the academic community through research, teaching and service as appropriate to the position.

The University of California is an Equal Opportunity/Affirmative Action Employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, protected veteran status, or any other characteristic protected by law.
