

Open Rank/Tenure Track Faculty for Electrical and Computer Engineering 2018-2019

The Electrical and Computer Engineering Department at Rose-Hulman Institute of Technology, a recognized leader in undergraduate engineering education, invites applications for a tenure-track position beginning Fall 2018. We are looking for applicants with a strong commitment to undergraduate engineering education including laboratory instruction and life-long personal professional development. Candidates with a specialization in computer engineering, particularly with expertise in the area of machine learning, who can broaden and enhance the educational experience of our students and department are especially encouraged to apply. Although we anticipate hiring at the assistant professor level, exceptional applicants in **any** area and at **all** levels will be considered. A doctorate or near completion in electrical or computer engineering or closely related discipline is required and industrial experience is a plus. Essential job responsibilities include teaching and advising students, continued professional development, and service to the department, institute and professional community.

All applications must be submitted online at: <https://jobs.rose-hulman.edu>. Every application must include: 1) a CV/resume; 2) a cover letter; 3) a statement of teaching that describes your teaching philosophy; and 4) a statement of professional development/research. Applicants who advance through the initial screening will be asked for three references who will submit recommendation letters. Additional information about Rose-Hulman's ECE department is available at Rose-Hulman.edu/ECE. Screening will begin December 2017, and will continue until the position is filled. EEO/AA
