

Tenure-Track Assistant Professor in Electrical Engineering

The Engineering Department of Trinity College invites applications to fill a tenure-track position in Electrical Engineering at the Assistant Professor level beginning fall 2017. Trinity College, founded in 1823 with a long history of engineering education in Hartford Connecticut, is a selective liberal arts institution with an enrollment of approximately 2200 undergraduates. The successful candidate will teach undergraduate microelectronics and other electrical engineering courses in an ABET accredited engineering program by the Engineering Accreditation Commission, <http://www.abet.org>.

Candidates must have an earned doctorate in Electrical Engineering with an active research plan. All areas of research will be considered and supported. Student-faculty collaboration is highly encouraged and strongly supported by the college. The Engineering Department has an active student-led robotics team. All faculty members are encouraged to participate and contribute their areas of expertise.

Applicants should submit a letter of application, Curriculum Vitae, research and teaching statements, and names and contact information for at least three references on <https://trincoll.peopleadmin.com/>. Applications will be reviewed starting November 1, 2016 and will be accepted until the position is filled. Women and minority candidates are strongly encouraged to apply. Trinity College is an Equal Opportunity/Affirmative Action employer.
