

Trinity College

HARTFORD CONNECTICUT

Engineering Laboratory Instructor

The Department of Engineering at Trinity College invites applications for a full-time Engineering Laboratory Instructor. The main responsibilities are teaching sophomore-level labs in Linear Circuit Theory; and Engineering Measurements, Instrumentation, and Analysis. The instructor will also assist students with their Senior Capstone Design Projects. As duties permit, there will be opportunities to teach engineering lecture and design courses, non-majors lecture and seminar courses, and to conduct research with undergraduates. The position begins in August 2017. The initial contract is for two years with a review of the position in year two.

The candidate should have an earned M.S. or higher degree in engineering or a closely related field. The Trinity College Engineering program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>. The engineering faculty are committed to using modern engineering design tools in the curriculum.

Applications should include a cover letter, a statement of teaching philosophy, a curriculum vitae or resume, and names and contact information for at least three references on <https://trincoll.peopleadmin.com/>. Review of applications will begin on 3/31/2017, and will continue until the position is filled. Women and minority candidates are strongly encouraged to apply. Trinity College is an Equal Opportunity/Affirmative Action employer.
