**University of Cincinnati, Professor Educator of Engineering,
Electrical Engineering**

The College of Engineering and Applied Science seeks to hire multiple Professor Educator faculty (3 year renewable appointments) in at least the following departments: Engineering Education, Mechanical and Materials Engineering, Electrical Engineering and Computing Systems. These positions will be required to teach at least one semester per year in Chongqing, China. Candidates must be:

- Passionate for American educational culture
- Excellent teachers
- Able to receive all necessary paperwork and visas to work in China
- A PhD in an appropriate discipline
- Willing to participate in curriculum and course development
- Willing to develop lectures and courses via distance learning
- Willing to participate in service and research related activities

Applicants should submit the following supporting documents: Cover Letter, CV, list of references (3), one page narrative of teaching experiences and teaching philosophy. Evaluation of applications will begin immediately until the positions are filled.

The Department of Electrical Engineering and Computing Systems (EECS) within the College of Engineering and Applied Science (CEAS) at the University of Cincinnati (UC) invites applications for an Assistant/Associate Professor Educator position to support its educational mission. The primary responsibility will be teaching selected courses to CEAS students at UC and at the CQU-UC Joint Engineering Co-op Institute in Chongqing, China.

The Department of EECS offers ABET accredited undergraduate programs in Electrical Engineering, Computer Engineering and Computer Science. The department also has graduate programs that confer Master of Science, Master of Engineering, and Doctor of Philosophy degrees. The EECS Department is currently serving 859 undergraduate and 387 graduate students.

Candidates must have a PhD in the field of Electrical or Computer Engineering or a closely related field. Primary duties include course preparation, delivering lectures and leading laboratories, holding office hours, grading and preparing assessment materials. Additional responsibilities will include collaboration with faculty on course development, student advising, and participation in service activities. Candidates should have prior experience teaching courses in the following areas: (1) programming, (2) embedded systems, (3) semiconductor physics and devices, and (4) engineering electromagnetics.

Initial appointment is up to three years and may be renewed. The position is a nine-month appointment per academic year some of which could occur in the summer term. During each academic year this professor will be assigned to teach at least one semester at Chongqing University in China. Anticipated work load is three courses per semester.

The University of Cincinnati is an affirmative action/equal opportunity employer M/F/Vets/Disabled. Women, People of Color, persons with disability, and covered veterans and disabled veterans are encouraged to apply. We are committed to increasing the diversity of the University community. Candidates who can contribute to that goal are encouraged to apply and to identify their strengths or experiences in this area.
