

# The Electrical Engineering Department at the University of Washington

invites applications for multiple positions at the lecturer level in the fields of electrical and computer engineering. We are looking for excellent candidates in the areas of energy systems, big physical data analytics, biomedical systems, Internet of Things, hardware platforms, robotics and autonomous systems. Highest priority, however, will be given to exceptional candidates regardless of the specific areas listed above. Information about the department can be found on the web at <http://www.ee.washington.edu>.

We are seeking one or more part-time or full-time Lecturers or Senior Lecturers. Applicants for lecturer positions must have earned at least a Master's degree and have relevant teaching or industrial experience in the course area. Lecturers and Senior Lecturers will be hired on an annual or multi-annual appointment.

Applicants should possess demonstrated ability to communicate complex technical information, lead and manage high quality graduate and undergraduate courses, as well as direct and supervise independent student projects and develop new courses and course content. All successful candidates are expected to participate in department activities, train and mentor teaching assistants, and participate with other tenure track faculty to mentor graduate students and engage in high quality teaching at all levels.

Please apply online at <http://www.ee.washington.edu/facsearch/> with a letter of application, a complete and current curriculum vitae, a statement of research and teaching interests, three key published papers or documentation of professional practice and accomplishments, and the names of at least three references. Applications received by March 31, 2017 will be given priority consideration. Open positions are contingent on funding.

The University of Washington is building a culturally diverse faculty and encourages applications from women and minority candidates. The University of Washington is an affirmative action and equal opportunity employer. All qualified applicants will receive consideration for employment without regard to, among other things, race, religion, color, national origin, sex, age, status as protected veterans, or status as qualified individuals with disabilities.
