The meeting started with a discussion of the date for the summer regional meeting. Brian Woerner kindly confirmed the meeting will be hosted by West Virginia University this summer. Suggest two dates one in July and one in September. The date that worked best for the attendees was **September 12-14, 2014.**

Some suggested topics for this meeting were decided as follows:

- Curricular trends; Classes using portable labs (e.g. Mobile Studio board); Pedagogy/online delivery
- ABET
- High school/middle school outreach; ECE branding; attracting female students
- Cybersecurity (UG and grad levels)

Brian will reach out to members of the ECEDHA Regional group to solicit speakers for the above topics.

The next meeting is tentatively scheduled at the following location:
